FSU meets Bauhaus

The seminar series "[Space for Visual Research](#)" at the Bauhaus University in Weimar, an Arts & Science follow-up initiative of "[Künstlerische Tatsachen](#)", has started. Two researchers from Jena presented examples of **scientific visualization** and discussed them with design students, who created graphics based on that exchange (one results you see on the right).

You also want to share your experience? More infos [here](#).

ERC starting grants - workshop

The [Service Centre Research and Transfer](#) offers a workshop presenting the funding program and the selection criteria for ERC starting grants for interested researchers. It takes place online on **23.03.2022**. All information and registration [here](#).

Funding portal for researchers

The vice presidium for research created a portal, summing up the **funding opportunities of the FSU and beyond** - for PhDs, Postdocs, Junior group leaders and advanced researchers. Check it out [here](#).

NutriCARD in cinemas

On 07.03. starts a [cinema series](#) supported by the cluster of competence for diet and cardiovascular health "[NutriCARD](#)". In 3 cities **movies** (in German) all around **diet and food supply** will be shown and followed by discussions about the topics with researchers, movie makers and activists.

Open Science for EC2U

As part of the [EC2U Alliance](#), the "[Research & Innovation For Cities & Citizens – RI4C2](#)" project is looking for **best practice** examples for Open Science. If you can contribute a short **case description** of data sharing, open access publishing, open source software, citizen science or similar, please share it in their [survey](#) until 28.02.2022.
