b. Project outline information

Please provide the following information in an attached project outline PDF file, not exceeding five pages.

1. Please describe the research project you are applying with, including a brief summary.
What are the main objectives of the project? Which scientific questions does the project seek to address?
What potential impact could outcomes of the project have?
2. How does the project integrate different disciplines? How will the project foster new collaborations and networking opportunities?
3. How does your research promote sustainability and long-term impact?
4. Please provide a budget plan and a timeline (12 months) outlining the key milestones for the project.
